CONTENTS OF *ECOLOGICAL MODELLING*, VOL. 42

VOL. 42 NO. 1 JULY 1988

Stepwise iterative calibration of a multi-species phytoplankton–zooplankton simulation model using laboratory data
K.A. Rose, G.L. Swartzman, A.C. Kindig and F.B Taub (Seattle, WA, U.S.A) 1
Estimation of marine production from size spectrum
J.E. Paloheimo (Toronto, Ont., Canada) 33
Probability distribution for critical DO location in streams
Y.K. Tung and W.E. Hathhorn (Laramie, WY, U.S.A.) 45
On the dynamical behaviour of transition matrix population models
M.E.J. Woolhouse (Harare, Zimbabwe) 61

Letter to the Editor
Network trophic dynamics 75
Network trophic dynamics: Reply to R.A. Herendeen 78

Book Review
Soil conservation resources inventory 85

Announcement 87

VOL. 42 NO. 1 AUGUST 1988

Characterizing populations as entities in ecosystem models: problems and limitations of mass-balance modeling
W.G. Cale (Dallas, TX, U.S.A.) 89
Simplified sensitivity analysis applied to a nutrient-biomass model
D.S. Mahamah (Lacey, WA, U.S.A.) 103
A theoretical model of the process of rainfall interception in forest canopy
Liu Jiagang (Beijing, People's Republic of China) 111
A general model of forest ecosystem processes for regional applications. I. Hydrologic balance, canopy gas exchange and primary production processes
S.W. Running and J.C. Coughlan (Missoula, MT, U.S.A.) 125
A functional interpretation of the logistic equation
M. Gatto, S. Muratori and S. Rinaldi (Milano, Italy) 155

Book Review
Bioeconomic modelling and fisheries management 161

Conference Report 163

VOL. 42 NO. 3/4 SEPTEMBER 1988

Using sensitivity and uncertainty analyses to improve predictions of broad-scale forest development
V.H. Dale, H.I. Jager, R.H. Gardner and A.E. Rosen (Oak Ridge, TN, U.S.A.) 165
Modelling nitrate removal by riparian vegetation in a springfed stream: the influence of land-use practices
J.W. Hearne (Palmerston North, New Zealand) and C. Howard-Williams (Taupo, New Zealand) 179
A model for the relationship between light intensity and the rate of photosynthesis in phytoplankton
P.H.C. Eilers and J.C.H. Peeters (Middelburg, The Netherlands) 199
A definition of the consistency of the carbon budget of an ecosystem, and its application to the Oosterschelde estuary, S.W. Netherlands
O. Klepper (Yerseke, The Netherlands) and J.P.G. van de Kamer (Middelburg, The Netherlands) 217
A numerical mixing zone model for water quality assessment in natural streams: conceptual development
S.S. Park and C.G. Uchrin (New Brunswick, NJ, U.S.A.) 233
A simple water balance daily rainfall–runoff model with application to the tropical Magela Creek catchment
I.M. Vardavas (Bondi Junction, N.S.W., Australia) 245
Practical aspects of modelling ecological phenomena using the cusp catastrophe
C. Ouimet and P. Legendre (Montréal, Que., Canada) 265
Entropy laws in ecological networks at steady state
I. Aoki (Osaka, Japan) 289

Book reviews
Groundwater protection 305
Environmental decisionmaking in a transboundary region 306
